CALIFORNIA EMERGENCY SOLUTIONS AND HOUSING (CESH)

PROGRAM SUMMARY

BACKGROUND

Senate Bill (SB) 850, approved on June 27, 2018, establishes the California Emergency solutions and Housing (CESH) Program and designates the Department of Housing and Community Development (HCD) to administer the program. CESH is designed to implement activities that address the needs of individuals and families experiencing homelessness and assist them to regain stability in permanent housing as quickly as possible.

The Orange County Continuum of Care (CoC) designated the County of Orange as Administrative Entity to administer CESH program funds in collaboration with the CoC as an action item on the CoC Board Agenda August 22, 2018.

On January 11, 2019, the County of Orange was awarded a total of $1,948,684 of CESH program funds for use in the Santa Ana/Anaheim/Orange County CoC, CA-602. The amount of $1,851,249 is dedicated to eligible activities under the CESH guidance, with the remaining amount of $97,434 used for administrative costs.

HCD grants CESH Program funds in the form of five-year grants to eligible applicants.

TARGET POPULATION

Individuals living homeless or at risk of homelessness. Assistance should be prioritized to homeless households over households at risk of homelessness.

PRIORITIZED ACTIVITIES

Prioritized activities are based on local needs and in coordination with a system of care that optimizes performance goals and works to close gaps in care. Projects demonstrate Regional Service Planning area and/or Countywide collaboration as well as maximization of funds by delivering client-centered services.

The Marching Home to End Veteran Homelessness in Orange County is an effort by local, regional and federal partners to prevent and end homelessness among veterans in Orange County by December 2020. The initiative builds on the momentum of the 2019 Point In Time and the Orange County Board of Supervisors efforts to address homelessness through the implementation of regional resources, and improved collaboration and coordination.

The initiative will develop a systemic, intentional and sustainable multi-sector response to veterans in needs of assistance and promotes coordination and collaboration of all partners to meet the needs of veterans in Orange County. The strategy document contains nine key areas of focus with 24 detailed goals to achieve “Functional Zero” by December 2020 that align with the United States Interagency Council on Homelessness’ Criteria and Benchmarks for Achieving the Goal of Ending Veteran Homelessness.

**Key Areas of Focus to End Veteran Homelessness**

**Evaluate the Status and Needs of the Veterans on the Veterans Registry**
- Understand the unique housing needs and barriers to housing veterans on the Veteran Registry are experiencing.
- Compare the findings of the veterans’ housing needs to the available and developing housing resources to identify gaps in housing resources
- Work with the System of Care to address and reduce barriers to housing to ensure veterans experiencing homelessness can transition to permanent housing.

**Maintaining an Accurate Veteran Registry and Track Progress towards Housing**
- Train service providers and street outreach teams on the Veteran Registry on a monthly basis, including how to confirm whether a veteran experiencing homelessness is listed on the Veteran Registry and how to add veterans experiencing homelessness to the Veteran Registry form to ensure it is reconciled.
- Implement a tracking mechanism within the Veteran Registry that measures timeframes between referrals and enrollments in to various available housing options, as well as move in dates to permanent housing.
- Track the progress the community is making towards solving veteran homelessness and decreasing the length of time veterans experience homelessness, the following measures will be incorporated into weekly Veteran Registry conversations regarding the status of the Initiative:
  - Monthly inflow of veterans experiencing homelessness into Orange County’s Veteran Registry.
  - Monthly outflow of veterans experiencing homelessness in Orange County and transitioning to permanent housing.
  - Number and type of housing referrals, including the number of veterans searching for housing and timeframe.

**Community Planning and Engagement**
• Promote community awareness and engagement in the initiative, Marching Home to End Veteran Homelessness in Orange County, by providing monthly updates on the progress to key stakeholders.
• Increase the level of collaboration and coordination with other key stakeholders, including, but not limited to, Grant and Per Diem providers, Veterans Justice Outreach and Homeless Veterans Community Employment Services.
• Expand community planning efforts in Orange County to develop additional supportive services and housing resources.
• Standardize policies and procedures and document protocols that expedite veterans to appropriate resources and supportive services.

Diversion and Prevention for Veterans
• Utilize Supportive Services for Veterans Families (SSVF) funding to support diversion and prevention activities to prevent veterans from experiencing homelessness or entering the homeless system of care.
• Create a comprehensive veteran specific resource guide that details all available programs and specific agencies that can assist veterans in obtaining the resources to be self-sufficient.

Street Outreach and Shelter Coordination
• Ensure veterans experiencing homelessness are contacted at least twice a month and provided with support and assistance to access emergency shelter and other supportive services.
• Establish a veteran priority for filling vacant emergency shelter beds and transitional housing beds in each Service Planning Area.
• Provide transportation to ensure linkages to services, shelter and housing referrals increase.

Increase Income and Connection to Available Benefits: Rebuilding for Sustainable Futures
• Facilitate quarterly trainings to assist street outreach, emergency shelter and homeless services providers on how to request veteran specific documentation through various means including online, forms, application.
• Ensure every veteran has the needed documentation to access and confirm eligibility for income, benefits and medical care.
• Co-locate community-based organizations at the Veterans Service Office to create a one-stop shop of supportive services for veterans who are at-risk of homelessness and experiencing homelessness for increased accessibility and warm hand off.
• Ensure every veteran on the Veteran Registry is connected to healthcare, income sources and mainstream benefits.

Coordinated Entry System and Case Conferencing Meetings
• Ensure active and consistent participation from street outreach and emergency shelter providers in weekly case conferencing meetings to discuss available housing options for veterans experiencing homelessness.

Expedite Veteran Housing Resources in Orange County
• Reduce the length of time between HUD-VASH referral to leasing of an apartment unit.
• Implement a Housing Navigation Service using SSVF funding to support veterans searching for housing who have a HUD-VASH voucher or need assistance securing permanent housing.
• Expand the Landlord Incentive Program to overcome barriers to identifying a housing unit when utilizing a HUD-VASH or Section 8 voucher in Orange County.
Housing Retention and Stabilization

- Ensure veterans who transition successfully into housing remain housed with a retention rate of a 95 percent at six months and 90 percent at one year after obtaining permanent housing.
